SKILLS

Ruby	Ruby on Rails	JavaScript
React.js	Redux	jQuery
Webpack	Babel	SQL
HTML	CSS	Git

PORTFOLIO

Tiger Crab Studios [Live](#) | [Github](#)

Redesigned website for Tiger Crab Studios (work in progress)

- Built a single-page web application by bootstrapping the project using the Create-React-App package, which reduced the time spent on getting the app set up and writing boilerplate code.
- Utilized Google Blogger API to create a sidebar feed of the most recent posts from Tiger Crab Studios' development blog on the homepage.

Budget Breakdown Calculator [Live](#) | [Github](#)

A monthly budgeting tool built with vanilla JavaScript for DOM manipulation.

- Created a HTML form that allows users to input their monthly expenses and calculates the user's excess budget or overspending
- Utilized Chart.js to render a responsive data visualization chart into a HTML Canvas based on the user's input
- Implemented Bootstrap.js for responsive web design to improve the UX on mobile devices

OKCupet [Live](#) | [Github](#)

An OKCupid-inspired pet matching web application built with Rails, React/Redux, and PostgreSQL

- Implemented an algorithm to create compatibility percentages between the user and the adoptable pets
- Created a messaging feature to allow users to send messages to a pet's owner or shelter organization to inquire about a pet adoption
- Rolled user authentication using BCrypt
- Utilized RESTful routes and AJAX requests to fetch data from PostgreSQL database

EXPERIENCE

App Academy

Software Development Instructor

Nov 2017 - Apr 2018

- Conducted 100+ technical interviews with alumni
- Developed content for technical interviewing that includes a mix of algorithm problems and JavaScript knowledge trivia
- Evaluated interviewees and provided constructive feedback on both their technical and behavioral performances

MOOVWEB

Office Coordinator

May 2016 - Jul 2017

Administrative Assistant

Jan 2015 - May 2016

- Provided administrative support for a company of 50+ employees
- Reduced overall facilities expenses by 30% through the reorganization of facilities operations
- Managed 200+ current and former employee records, scheduled meetings, and booked company travel accommodations
- Fostered and maintained company culture through organization of company-wide events, such as movie nights, game nights, annual picnics, and holiday parties

UNIQLO, LLC

Assistant Store Manager

Mar 2014 - Nov 2014

Supervisor

May 2013 - Mar 2014

Sales Associate

Jul 2012 - May 2013

- Trained 20+ new hires each hiring season on UNIQLO standards and provided on-the-job training to veteran associates to further develop product knowledge, sales skills, and professional growth
- Created all work schedules and delegated responsibilities to subordinate managers and supervisors
- Crafted stock plans by analyzing sales data to forecast and capitalize on customer demand for particular product types

EDUCATION

App Academy

Immersive 1000+ hour software development course with a <5% acceptance rate that focuses on full-stack web development

San Francisco State University

B.S. - Business Administration, concentration in Management
